WHAT IS SELECTIVE SERVICE REGISTRATION?

Selective Service registration is required by law as the first part of a fair and equitable system that, if authorized by the President and Congress, would rapidly provide personnel to the Department of Defense while at the same time providing for an alternative service program for conscientious objectors.

WHY DON'T WOMEN HAVE TO REGISTER?

The Military Selective Service Act, as it is presently written, refers specifically to “male persons” on stating who must register. Therefore Selective Service procedures do not apply to women. Congress would have to change the law to require women to register with Selective Service.
